

Adjustable Floating Fish Grader Instructions (Part Nos. G1, G1B)

Thank you for purchasing this Adjustable Floating Fish Grader from Aquatic Eco-Systems. This is an easy-to-use grader that's built to last a lifetime. Its sturdy aluminum construction will stand up to careless handling and the rigors of field work.

- Speeds and simplifies accurate grading of fish by width.
- Can be quickly adjusted to any one of the 30 gradations between 1/4" (6.3 mm) and 1 1/8" (28.7 mm).
- Overall size of fish grading enclosure: 15" x 17" x 12" (G1)
21" x 28" x 16" (G1B)

To assemble, align floats and handles with existing holes on the main body of the grader, thread the bolts through and tighten.

Channel Catfish

27/64 holds 3" fish
32/64 holds 3" fish
40/64 holds 3" fish
